Introduction to Websites

1. What does HTML stand for? What purpose does it serve?

2. What does URL stand for? What purpose does it serve?

3. What does DNS stand for? How does this benefit users?

4. Name at least 6 current browsers and the operating systems (Linux, MacOS, Windows, etc.) that can use them.

5. Spend some time exploring the internet for sites that grab your attention. Choose at least 3 websites and answer the following questions for each:
   a. What is the name of the website?

   b. What is the website's purpose? (Selling something, entertainment, etc.)

   c. What aspects or characteristics of the website do you find appealing?
